

How to buy coins ?

1. Click Buy on the homepage

The screenshot displays a dark-themed interface for buying Bitcoin. At the top, there are two tabs: 'BUY' (highlighted in orange) and 'SELL'. Below the tabs, the 'Buy' section features a white input field labeled 'Coins' and a Bitcoin icon with the text 'BITCOIN'. To the right of the input field, it shows 'Min 0.002 BTC' and 'Max 0.1693 BTC'. The 'Pay' section below it has a white input field labeled 'Money' and an Indian Rupee icon with the text 'INR'. To the right of the input field, it shows 'Estimated Rate 1 BTC = 590379.49 INR'. At the bottom, there is a large orange button labeled 'Place Order'.

2. Type in the number of coins you want to buy and we will show you the money you will have to pay on the "Money" tab. If you type in the money you want to spend, you can see how many coins you will be buying for the money you intend to pay. These are based on our dynamic rates shown on the Buy page and may vary by the time you get a seller match.

BUY SELL

Buy Min 0.002 BTC Max 0.169 BTC

₿ BITCOIN

Pay Estimated Rate 1 BTC = 591438.05 INR

BUY SELL

Buy Min 0.002 BTC Max 0.169 BTC

₿ BITCOIN

Pay Estimated Rate 1 BTC = 591438.05 INR

🇮🇳 INR

Place Order

3. You may have to go through a phone number verification using a SMS OTP if not done already. Note that we don't have any pesky login screens.
4. Click "Place Order" and wait while we find a matching Seller

5. You will see your first seller match on this page. You will have to transfer the money showed on the transaction to the seller account in under the timer countdown. DO NOT send more than the transaction amount box with title "Send Exactly (Do not round off)", note that in this match, you may end up buying less than what you intended to, this is normal, and this is because we could only find a seller match with less coins than what you wanted to buy. Click "I have paid" once you pay the transaction amount to the seller. And yes, for the balance of your order, we will keep looking for new sellers and will match them as we find them.

6. Now that you have paid the seller, wait for the seller to confirm payment receipt; you will get your coins credited to your wallet when the timer runs out.

Transaction # 1

Buying 0.0138 BTC  Rate 1 BTC = 570759.41 INR

How to Sell coins ?

1. Click Sell on the homepage

The screenshot shows a dark-themed interface with two tabs: 'BUY' and 'SELL'. The 'SELL' tab is active and underlined. Below the tabs, there are two main sections. The top section is labeled 'Sell' and includes a 'Min 0.002 BTC' indicator. It features a white input field containing the text 'Coins', a Bitcoin icon, and the word 'BITCOIN'. Below this is the text 'Available Balance 0.148 BTC'. The bottom section is labeled 'Receive' and includes an 'Estimated Rate 1 BTC = 591438.05 INR' indicator. It features a white input field containing the text 'Money', an Indian flag icon, and the text 'INR'. At the bottom of the interface is a large teal button labeled 'Place Order'.

2. Type in the coins you intend to sell on the “Coins” tab, you will see the money you are intended to receive on the “Money” tab. This is calculated as per our dynamic rate service but the actual rate may differ by the time you confirm payment receipt from the buyer in your bank account.

This screenshot shows the same 'SELL' interface as the previous one, but with the input fields filled. The 'Sell' input field now contains the value '.1'. The 'Receive' input field now contains the value '58347'. The 'Estimated Rate' has updated to '1 BTC = 583471.49 INR'. The 'Available Balance' remains '0.148 BTC'. The 'Place Order' button is still visible at the bottom.

3. You may have to go through the phone number verification using a SMS OTP if not done already.

4. Deposit coins to your InstaShift wallet address shown on the deposit page. It is okay to deposit more than your intended sell quantity, all your coins go to your personal, secure InstaShift coin wallet.

Step 1 Order ID 6d5b82cf-875f-4122-8296-a819644dcb66

 **Finding Buyer...**

7. Now you have matched with a buyer, expect to receive your money by the timer timeout. Notice that you may get a transaction with lesser coin quantity, this is because we matched a buyer who only wants to purchase lesser than your original sell intent. Do not worry, we will keep looking for new buyers and will match them as we find them.

Transaction # 1

Selling 0.17 BTC ● Rate 1 BTC = 576800.33 INR You will receive **97075 INR**

Expect your money in 🕒 1 min, 43 secs
